Infection Control and Prevention in Dentistry

ADVANCED PERIODONTICS INSTITUTE

Presented by:
Dr. Sanjay Chand, MD

3 HOUR CE

COURSE DESCRIPTION:

The course will allow dental health care providers to be current with infection prevention protocols and updated guidelines in the dental practice. Attendees will receive information on how to maintain a safe workplace environment and implement appropriate infection control measures in their practice.

They will also gain understanding of common transmissible and infectious diseases and insight into appropriate immunization recommendations to prevent infectious disease.

EDUCATIONAL OBJECTIVES:

At the conclusion of the course participants will be able to:

- Be current with infection prevention recommendations by CDC and OSHA
- Implement effective infection control measures in their practice
- Choose appropriate personal protective equipment (PPE) and maintain a safe workplace environment
- Understand current vaccination recommendations for DHCPs
- Understand current infectious diseases that may impact the dental practice

ABOUT:

Dr. Sanjay Chand MD has specialized in Medicine with emphasis on Infection Control. He is Clinical Associate Professor at the University of Detroit Mercy's School of Dentistry. Dr. Chand is Director of Infection Control and oversees best practices at the Dental School. He is responsible for infection control policies and their implementation in accordance with CDC guidelines. Dr. Chand is a frequent speaker at many Continuing Education talks at national and international conferences. His area of expertise includes Infection Control and Chronic Disease Management in the dental patient. He has been well received at the Michigan Dental Association (MDA), Michigan Dental Hygienists Association (MDHA) and OSAP (Organization for Safety, Asepsis and Prevention) Annual conferences where he is a key note speaker this year.
